

Influencing Skills for the APS

One on One (1/2 day), Small or Large Groups (1/2 to 1 day)

In today's competitive workplace the ability to communicate clearly and persuasively provides our greatest opportunity for success, but it is also one of our biggest challenges. To master the art of persuasion you must be able to build rapport, think on your feet and communicate well even when under pressure.

"A number of years ago, I knew of a very competent senior policy officer who in hindsight was clearly 'ahead of his time'. He blamed others for not being open to his ideas. He felt frustrated and thought that he was not being listened to, so he finally left the Department. However, his problem was not his listeners but his communication skills. He failed to 'get his message across' or influence his colleagues because he did not communicate his ideas clearly or persuasively. "

Sue Willis, Course facilitator

No doubt the story above has been told many times. What a loss to not only the officer involved but also to the Department and to Government as a whole. Can you relate to this story? Have you ever come away from a conversation, a meeting or even an interview knowing that you haven't made your point or argument effectively? If your answer is "yes" then you cannot afford to miss this workshop.
