

Productiv_IT with Outlook 2003 Productiv_IT with Outlook 2007 Productiv_IT with Outlook 2010 for Executive Assistants

One on One (1/2 day), Small or Large Groups (1/2 to 1 day)

The workshop is designed to deal with the productivity challenges specific to Executive Assistants. Hundreds of EA's in the ACT have already experienced improved workplace productivity from attending this workshop.

If you manage multiple Calendars and need a systematic tool to juggle your Inbox, and your manager's then this workshop will help you.

Objectives

Productiv_IT with Outlook for Executive Assistants is a one on one session, or a one-day workshop for small or large groups who are users of Microsoft Outlook to maximise their workplace productivity. This program combines good time management practices and modern technology for people who need to be at their maximum effectiveness. We teach you workflow practices that will help you to become more organised and less reactive. You will discover ways to manage work your boss has delegated to others and learn quick and simple methods of reporting so that you can update your boss on the current status of any project.

Find out how to get benefit from the hidden power in Outlook and learn faster ways to perform common functions. Discover the things you shouldn't be using excel for, such as staff leave calendars, a contact list or 'to do' list. Learn how to set up Outlook to manage your job productively and how to stay on top of the myriad of tasks that come across your desk.
